

## Halogen Downlights

Downlights are fast becoming the most stylish way to shed some light on your home's best features. Now an integral part of any well designed interior, they can be used to create dramatic lighting effects in the home.

Available in

- White
- Brushed Chrome
- Brass
- Frosted glass for the bathroom

They enhance and add value to your home. They can be used to make a room appear bigger and create less shadowing or used to highlight a special piece of artwork.

Clipsal has now released their stunning new CDL series downlight range, which is both durable and stylish. Available in a range of modern finishes and with models designed for every room of your home, there's something to suit every decor.

All downlight kits come with a high quality electronic transformer, which has been tested and approved by Australian standards.

## Square Designs

Square designs have now taken hold! Great to add a modern feel to any home, old or new, square downlights can be used anywhere in the home and fantastic for lighting staircases and hallways

Clipsal's new CDL Series of Downlights includes fixed and adjustable rotatable designs
